

D&K System Jr.

The System Jr. Opens The Door For Any Organization That Wants To Bring High Quality Finishing In-House.

As a direct descendent of the larger D&K Systems, the System Jr. provides durability and flexibility in thermal lamination at a price that makes it welcome in any finishing shop.

Entry-Level Ease

The System Jr. is comprised of an automatic sheet feeder, one-side laminator, and an automatic sheet separator. Each component is modular and can be added or removed for optimum usage. Its integrated electronics provides for rapid setup and simple maintenance and since the System Jr. needs only one operator, you'll find it particularly easy-going on your "labor pocketbook."

Strong Finisher

Your printing is guaranteed to be elegantly complemented with the System Jr. Colors are brilliantly illuminated, while images become sparkling, clear, and vibrant. Without a question, the finish is superlative in every measure. Yet, it is achieved in a most simple and cost-effective manner.

System Jr.

System Jr. Specifications

Equipment Specifications

Dimensions:

Feeder 42" W x 48" L x 52" H

Laminator 51" W x 59" L x 58" H

Separator 46" W x 64" L x 39" H

Electric: 220V, 30A w/neutral, or two lines at 120V, 15A

Air: 2 cfm 1/2HP, @ psi w/ storage tank

Warmup Time: 10° F/min

Temp Range: 70° - 300° F

Running Temp: 230°- 260° F

Speed: 50 fpm

Min. Sheet Size: 8-1/2" x 11"

Max. Sheet Size: 27 x 30 or 27 x 40 (depending on feeder)

Min. Sheet Thickness: 80 lb. offset

Max. Sheet Thickness: 18 pt. board

Engineered to meet today's rigorous laminating standards
